

Section 2: Amendment of Specification in Response to Objection To Specification:

If the following has been attended-to in connection with Applicant's Response filed February 16, 2006, please ignore this Section of this Supplemental Response.

Please amend the Specification as follows by replacing the paragraph on lines 5 – 8 of page 1 of the Specification with the paragraph shown below to clarify the Cross Reference to Related Cases and respond to the Objection to the Specification on page 5 of the Detailed Action.

Please insert on page 1, line 5 of the Application the following replacement paragraph:

- - This is the Regular US Application [~~and/or its PCT counterpart~~] of US Provisional Application S.N. 60/423,539, filed 4 November, 2002, by the inventor, entitled "Oral Hygiene [~~Hygene~~] System, Dosage Units and Method", the priority of which is claimed under 35 US Code 119[~~, and related treaties~~]. - -

End of Section 2.
